

## Internship FAQs

**Q: Are QTS internships in-person, hybrid, or fully remote?**

**A:** Our internships are primarily in-person, but we know that flexibility is required. We encourage the intern to work with their manager to identify if and when remote days may be permitted.

**Q: Is there assistance with relocation/temporary housing?**

**A:** Yes, we offer assistance to help cover temporary housing during the internship.

**Q: What are the main internship tasks and responsibilities?**

**A:** Day-to-day tasks will vary dependent upon the internship type. The responsibilities should accurately reflect the tasks of similar full-time employment roles.

**Q: What is the expected internship duration and schedule?**

**A:** QTS Summer Internship program extends twelve weeks running from late May through early August. Exact dates will vary annually.

**Q: Are internships paid?**

**A:** Yes, we work with our partner institutions to ensure we are among the most competitive employers in the intern market.

**Q: What projects or initiatives would I be involved in?**

**A:** As each internship type varies, the projects will too. Each business unit strives to assign projects that meet the following requirements:

1. Align with your major and career interests.
2. Can be completed within the internship duration.
3. Provide value to both the intern and the business.

**Q: What kind of training or onboarding is provided for new interns?**

**A:** Interns will shadow a fellow QTSer in a similar functional role to learn the daily responsibilities and functions of their respective team. Additionally, interns will attend QTS Journey — our internal business unit expo — in Duluth, GA — a two-day assimilation into our teams, culture, and business.

**Q: What level of guidance or mentorship can I expect throughout the internship?**

**A:** Interns are paired with a fellow QTSer with a similar career path, function, and trajectory to help the intern assimilate into the respective team and geographic location.

**Q: Is there potential for interns to be hired full-time after the internship?**

**A:** Absolutely! We carefully plan our summer internships to align with the full-time hiring goals of the company.
