

QTS Cambois

QTS is redeveloping land at the former Power Station site in Cambois into a data centre campus. The state-of-the-art facility that will be constructed represents one of the largest inward investments in the UK of up to **£10 billion**.

Environment & Sustainability

QTS practices being responsible stewards of the environment through:

- › Water-free cooling
- › Carbon reduction efforts
- › Commitment to clean energy
- › Environmentally focused engagement efforts

Community Impact

QTS is committed to making a lasting impact beyond the walls of our data centre campus. We've been working with the nearby communities to understand where and how we can support residents. Our team has proudly supported the area in a variety of ways.

- › 380 hours of volunteer efforts at local organisations
- › £171,000 in charitable donations and sponsorships
- › Launched **Better Together** campaign to bring people together through sport and support mental health services in the region

**BETTER
TOGETHER**

Supporting Mental Health & Education
